Glossary

Term	Definition
Volume	Total number of shares traded during the day. Shows market participation.
Close Price	The final point at which the index closed for the day. Used for structural and behavioral calculations.
Swing Volume	Volume associated with a structural swing (up or down). Indicates strength behind the swing.
Swing Range	The price movement range during a structural swing. Shows how far the market moved in that swing.
Above	The upper structural threshold. If price stays above this, the market is respecting upside structure.
Upside	The upper behavioral band showing how far the market can structurally move upward.
Below	The lower structural threshold. If price stays below this, the market is respecting downside structure.
Downside	The lower behavioral band showing how far the market can structurally move downward.
